We stand behind NANUK™ and we guarantee it for life.

NANUK™ cases are designed to protect the most sensitive equipment in the harshest environments. Whether transporting your gear through the Amazon jungle or across the planet's most punishing terrain, every detail of NANUK™ has been refined and perfected to offer the utmost in protection and performance. From our high-impact NK-7 resin to our PowerClaw latches, NANUK™ has been engineered and manufactured to stringent military specifications to surpass the needs of the most demanding users. These virtually indestructible, lightweight, waterproof cases (IP67 rated) offer the ultimate grade of protection in a variety of sizes, configurations and colors.

Complimented by a large selection of optional accessories and an incredible degree of customizability, NANUK™ is the best choice to move your equipment in complete security. Whether transporting valuable equipment around the world or simply protecting sensitive tools in the urban jungle, NANUK™ is up to the challenge.

NANUK series

NANUK comes loaded with innovative features. Countless hours of research and development went into defining the requirements for NANUK. The result is a line of cases that are equipped to meet today's challenges. Responding to feedback from professionals in various fields, NANUK is the evolution of traditional protective cases.

NANUK has also been designed to adapt as your needs change. Many features that are optional on other cases are standard on NANUK. By integrating attachment features into the case at the design stage, you can easily add a shoulder strap or a panel kit without modifying the case with holes or additional hardware. The attachment features are already there when you need them.

NANUK™ was built with performance and expandability in mind.

The NANUK advantage |

1. Padlockable
2. Waterproof - (IP67 rated)
3. Impact resistant NK-7 resin
4. Soft grip foldable handle
5. Powerclaw latching system
6. Integrated lid stay
7. Stainless steel 304 hardware
8. Integrated bezel system
9. Stackable

PowerClaw Latching System |

U.S. Patent 8,297,464

The patented PowerClaw Latching System used on all NANUK cases is engineered to keep your case closed during the toughest of missions. The PowerClaw clamps the case tightly closed using compressive force while the integrated slide lock prevents the case from opening during transport or when dropped. The super tough nylon construction ensures your precious items remain safely inside the case no matter where the journey takes you.

Waterproof IP67 |

Water and dirt are the enemies of sensitive equipment. NANUK cases are IP67 rated to ensure that your equipment stays dry and dust free. An IP67 rating requires the case to be watertight to a depth of 1m (3.3ft) for a period of 30 minutes and to be impervious to dust.

Automatic pressure release valve

Changes in altitude and geographic location creates a vacuum which can effectively seal a case shut. NANUK's integrated auto-pressure valve equalizes this atmospheric pressure difference. Using state-of-the-art technology, the micro vent allows air to pass through while preventing water from entering.

Seal

The seal used in all NANUK cases is custom designed to fit our cases. The seal is constructed of high quality EPDM to minimize material deformation and fatigue and provide a watertight seal that will last.

Impact Resistant NK-7 Resin |

NANUK was designed with one objective in mind: survival. With rounded corners, thick wall construction and oversized details, NANUK is built to absorb the shocks without compromising the case or more importantly your contents.

Based on Plasticase's years of experience in the plastics industry, our new NK-7 resin was developed specifically for the demanding conditions that NANUK will be exposed to. Highly impact resistant, lightweight, and rugged, our NK-7 resin can withstand nature's extremes.

Certification |

NANUK is tough and durable, but don't just take our word for it. NANUK cases were tested by an independent testing laboratory for compliance with the following standards:

- ATA Specification 300**
- Category 1 Impact**
- ASTM D-4169 DC-18 Drop - Vibration - Rainfall**
- MIL-STD-810F Immersion**
- IP67 Ingress protection**

All NANUK cases tested were awarded certification after successfully completing the tests.

wheeled series

Mobility is critical when transporting heavy or bulky equipment. The wheeled series combines NANUK's standard features with the added performance of polyurethane wheels and a one touch extendable handle with two height settings for easy maneuverability. All wheeled cases also feature stainless steel reinforced padlock inserts to keep your valuables safe on your travels.

wheeled series features |

1. 2-stage retractable handle with quick release button.
2. Reinforced metal padlock holes
3. Top and side spring loaded handles*
4. Polyurethane wheels with stainless steel bearings

5. Powerclaw latches (x4)*
 6. Top and bottom panel mount
 7. Removable lid

long series

Designed for both weapons and industrial equipment, NANUK long cases offer the extra length you need to protect your equipment. Featuring 4 Powerclaw latches, polyurethane wheels and spring loaded handles these cases are engineered to withstand the extreme demands of the military, outdoorsmen and the professional alike. All long cases are equipped with four stainless steel reinforced padlock inserts to keep your valuables safe on your travels.

long series features |

1. Spring loaded handles (x2)
2. Powerclaw latches (x4)
3. Tie down eyelets
4. Reinforced metal padlock holes (x4)
5. Polyurethane wheels with stainless steel bearings
6. Lid stopper (not shown - case opens to 110 degrees)

NANUK NANO colors

Whether you need to blend in or stand out, NANUK and NANUKNANO's range of standard colors gives you the choice. Custom colors are also available with minimum quantities required. Contact us for further details.

*T= indicates translucent color

NANUK colors

*Not available as a standard color for all cases. Please refer to product pages for availability.

Accessories

Cubed Foam

Made of high quality polyurethane foam, the multi-layered set of customizable inserts includes a pre-scored removable layer. This layer consists of foam squares that can be removed in various configurations to accommodate the contents of the case. This solution is ideal if you are seeking a quick and easy way to protect and organize your items.

>> measure

>> remove

>> protect

Padded dividers

If you require compartmentalized protective organization of your components or equipment, our padded dividers are the right choice. Easily tailored to your needs with repositionable tongue and groove fasteners, our padded dividers are designed to easily organize and protect your equipment.

*Available for NANUK 905 – 960 cases.

Shoulder strap

Our neoprene shoulder strap incorporates Aircell™ comfort technology to reduce fatigue when transporting your case. The shoulder strap can easily be attached to most NANUK cases without any additional hardware.

*Compatible with NANUK 905 – 945 cases.

Accessories

TSA padlocks

TSA padlocks offer the security of a padlock but can easily be opened and inspected by airport security and then locked again. A visual indicator lets you know when the case has been opened with a TSA key.

Waterproof panel kit

A panel kit can easily be added to any of our cases thanks to our integrated bezel system. Included in our panel kit is a contoured 3/16" thick polycarbonate panel with mounting screws and an adhesive backed die-cut gasket. A lid mounted panel kit is available for the 910, 935, 950 and 960 cases. The lid mounted panel kit does not contain a gasket.

*Not available for NANUK 990 – 995 cases.

Custom panel kit

Not just a case: our case interior specialists can help you incorporate your electronic instruments into NANUK. With our integrated panel kit system you can take full advantage of our OEM housing solution. Simply provide us with your equipment specifications and we will develop an innovative portable unit tailored specifically to your needs.

Custom foam

If your application requires a customized solution, specifically adapted to the contents of your case, a custom foam interior is the way to go. Let our experienced team of case interior specialists help you optimize the layout of your components to ensure the utmost protection of your products and equipment.

Custom printing

What better way to make your mark than to have your company's logo or product branding printed in color on our cases? Simply send us your artwork and our experienced graphic designers will work with you to convey your message in the most effective and unique way.

Applications

NANUK cases are designed to protect and transport your gear whether you are shipping delicate cargo around the world, transporting sensitive medical equipment, or protecting expensive electronics from the elements.

Law enforcement agents, photographers and hunters all know that if it needs to get there in one piece, it needs to go in a NANUK.
